## Collage-making

### Physical Education and Health

**Directions:** Using your cutout pictures, make a collage that will describe your physical, social, and mental health. Then, answer the follow-up questions on the next page. **(3 items x 5 points)**

Criteria	Points
Most pictures showed specific pieces of evidence that describe physical, emotional, mental, and social health that are parallel to the student's explanation.	5
Some of the pictures showed specific pieces of evidence that describe the student's physical, emotional, mental, and social health and somewhat parallel to the student's explanation.	3
Pictures showed no piece of evidence that describes the student's physical, emotional, mental, and social health that are parallel to the student's explanation.	1

1. Why is it important to know the factors affecting an individual's health?

---

---

---

---

---

---

---

2. Do you think you are healthy? Explain your answer.

---

---

---

---

---

---

---

Criteria	Points
Stated specific and relevant pieces of evidence and explanations given show how each evidence supports the position statement.	5
Most of the pieces of evidence supported the position statement.	4
Stated pieces of evidence that supported some of the position statement.	3
Some of the pieces of evidence stated are not related to the position statement.	2
The pieces of evidence stated are not related at all to the position statement.	1
